best. facial. ever.

Rezenenerate NanoFacial Presentation

2023 Edition

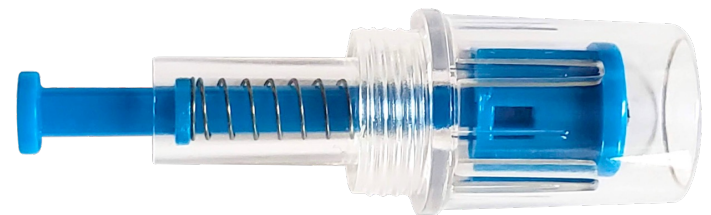

WHAT IS THE REGENERATE NANOFACIAL?

The **Rezenerate NanoFacial** is the newest skin care modality on the market today bringing you the same great results as more invasive systems without any of the negatives. Don't be fooled by imitators with low grade technology, sub-standard materials, and non-existent results.

Rezenerate NanoFacial is the ONLY company utilizing cutting-edge **Nanotechnology**, the pressure points of **Acupressure**, and the cool touch of **Cold Therapy** to deliver the **Best. Facial. Ever.** We are dedicated to helping professional skincare providers administer the best facial possible with a safe, effective, and easy to master system.

rez

"I love that I can offer this service to the majority of my clientele and it's an effective add on or stand-alone service." *Shannon D. - Rezenerate Authorized Provider (RAP), Austin, TX*

NANOTECHNOLOGY

What is Nanotechnology?

Nanotechnology is often incorrectly marketed or defined as simply “something very small.” While that is technically true, it is something of a false equivalency as scale matters greatly. A scientifically accurate definition of nanotechnology would be: “science, engineering, and technology conducted at 1 to 100 nanometers on the nanoscale.”

Nanometers are scientifically denoted by **nm**
1 MILLION nm = 1 Millimeter

 **Atom = 0.20nm**

 **Molecule = 2nm**

 **Virus (small) = 20nm**

Strand of Hair = 80,000nm

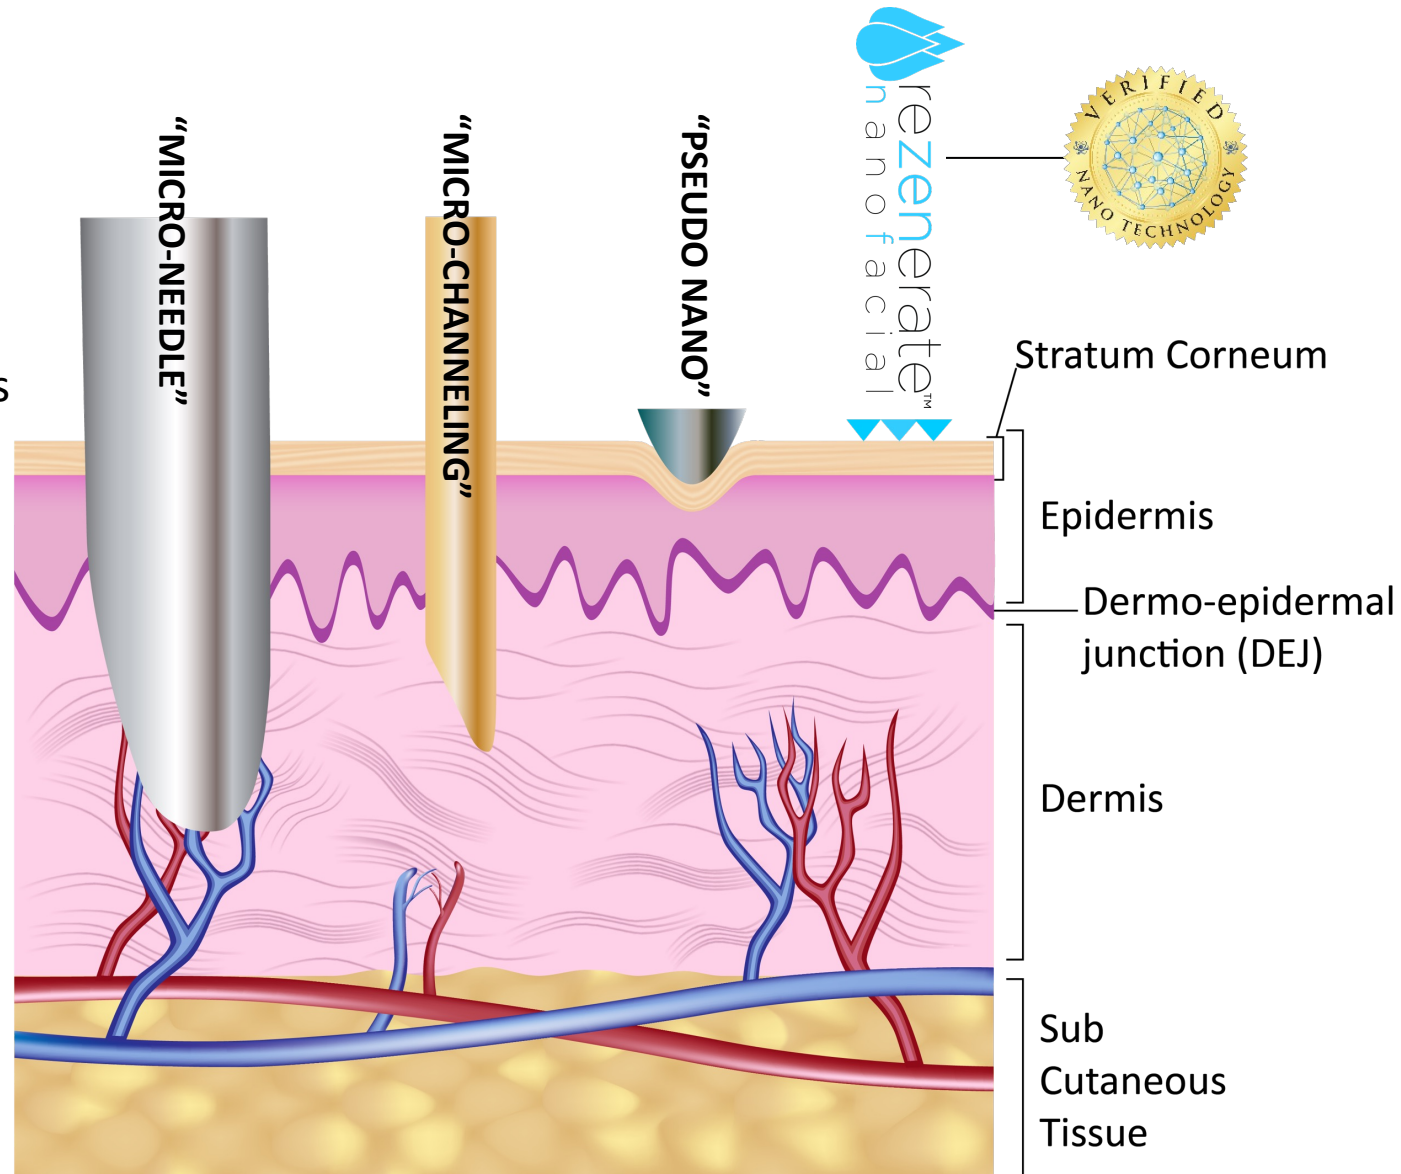

Micro-Needle = 100,000+nm

“This is now my FAVORITE skin tool. I am blown away after each session with clients.” Cherece L. - RAP, Atlanta, GA

HOW DOES IT COMPARE? IT DOESN'T.

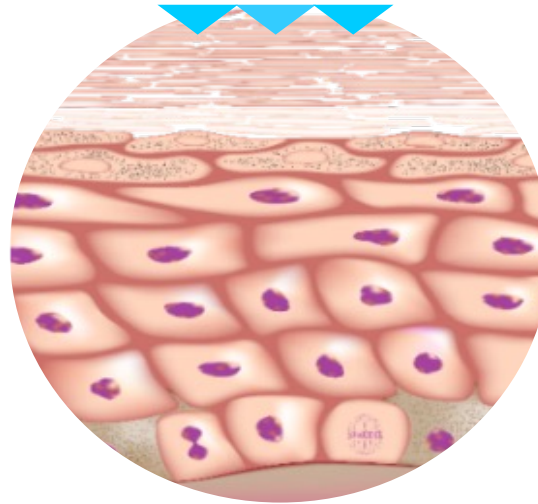

- 1000x + smaller than any needle
- Tips are smaller than human cells
- Delicately conditions Stratum
- Non-Invasive, safe, & effective
- Can be used on all Fitzpatricks
- Focuses on product infusion
- Verified Nanotechnology
- Product & Modality Neutral

"We've seen no other device or modality that can produce SUCH jaw-dropping results with NO downtime and most clients see VISIBLE results in ONE treatment!!!!" Stephanie C. - RAP, Sugar Grove, NC

INCREASED PRODUCT ABSORPTION

**Industry average absorption:
2 - 10%**

**Rezenerate:
increases to upwards of 40 - 50%**

REGENERATE NANOFACIAL SIGNATURE FACIAL

💧 NanoCleanse

💧 *Take client BEFORE photo*

💧 Mild or Mechanical Exfoliation (Optional)

💧 Apply Infusion Serum

💧 Rezenerate & apply HyRez Glide as you work

💧 Cooling Technique/Device

💧 *Take client AFTER photo*

💧 Home care instruction & book next appointment!

Complete instructions (manual, educational video & protocols) included with purchase!

REZENERATE NANOFACIAL BENEFITS

Nano Infusion: The Rezenerate NanoFacial offers immediate and long-term results that enhance product absorption and penetrate active ingredients deep into the skin for optimal skin restoration. As Rezenerate NanoFacial is a product neutral, modality benefits can and will vary, but include:

- 💧 Drastically increased efficacy of your chosen product line
- 💧 Optimized skin health by delivering nutrients without any discomfort
- 💧 Vibratory facial massage
- 💧 Instant plumping

Cold Therapy: Using Rezenerate NanoGlobes for cold therapy following infusion preserves telomere length which is correlated to longevity, quality of life (QOL), slowing down the aging process, and:

- 💧 Reduces inflammation
- 💧 Soothes redness
- 💧 Decreases the appearance of large pores
- 💧 Tightens skin and aids in the elimination of fine lines
- 💧 Provides relief to sinus or migraine headaches

Acupressure: Acupressure massages for your face work like full body massages. Just as you can strengthen muscles, increase circulation and release tension from other parts of your body, you can brighten your skin, smooth out furrowed brows and strengthen every facial muscle with acupressure. It also:

- 💧 Aids lymphatic drainage
- 💧 Stimulates and exercises facial nerves and muscles
- 💧 Increases circulation
- 💧 Brightens skin

NANOFACIAL EXPLAINED

Day 1:

At the start of the NanoFacial, the client feels the vibratory facial massage from the device. They will feel the actives going to work and feel a fullness in their skin. Post facial, they will see some instant plumping and instant results.

Days 2-4:

Clients typically experience dry skin similar to a gentle micro-peel. Depending on the products infused, clients may have light flaking. Not all clients will experience this flaking however, for example, if they use retinols at home or exfoliate often.

Days 4-7:

Your client will see tighter, more evenly toned, and finer textured skin. This is typically when others start to notice the positive changes in the client's skin.

Days 7+:

Long term benefits of your chosen protocol, especially when they continue use of the nutrition infused.

PRODUCT NEUTRAL

- 💧 **Rezenerate** works with all Professional Skin Care Lines.
- 💧 Gives you the ability to “Super Customize” treatments.
- 💧 Improves the efficacy of your preferred product line.
- 💧 **Rezenerate** does not promote any specific beauty line.
- 💧 Makes all products more effective...Best. Facial. Ever.

Over 100 professional protocols included with purchase!

"This tool has been a game changer in my business!!! Clients FEEL and SEE the difference. Once they have had it...they continue to want it!!" *Cindy C. - RAP, Montebello, CA*
